

Full Stack Developer

Are you a passionate Full Stack Developer looking to work on impactful projects in an industry moving full speed ahead with digitalisation? Do you thrive in a collaborative environment where your code powers innovative solutions? If you have an interest in maritime shipping and want to be part of its transformation, we'd love to hear from you!

What you will do...

As our new Full Stack Developer working out of our Copenhagen office, you will be joining the Business Intelligence team of 19 dedicated colleagues. In this role, your contributions will be central to the success of the company, by developing and maintaining software solutions that supports and aligns with the organisation's projects and ambitions.

As our new Full Stack Developer, you will...

- Play an integral role in the planning and designing the infrastructure for custom-built solutions
- Develop, test, and maintain internal tools and applications to support commercial decision making
- Ensure code quality, maintainability, and portability
- Contribute to the planning of the infrastructural requirements for custom-built solutions
- Continuously enhance and optimise our development processes
- Collaborate closely with product managers, domain experts, and fellow developers

We're looking for a team player who...

- Has a strong sense of ownership and responsibility
- Thrives in a collaborative environment but works independently with confidence
- Embraces constructive feedback and continuously seeks growth as a developer
- Communicates ideas clearly and effectively
- Understands user needs and perspectives
- Is fluent in English (written and spoken), as this is our corporate language

At Ultrabulk, we place a high value on our work environment. We believe the right candidate will not only bring expertise and drive but also contribute positively to our culture, which is built on strong teamwork and a welcoming, social atmosphere.

We furthermore expect that you have...

- Hands-on programming experience with Web applications
- Relevant IT-degree (Computer Science, Software Engineering, or a related field)
- Strong interest in UX and skills in front-end design with experience in modern frameworks (e.g. React, Svelte, Angular)
- Familiar with Cloud platforms and Serverless Architecture (e.g. Azure Functions, AWS Lambda)
- Experience with database management systems (e.g. MongoDB, MSSQL, PostgreSQL)
- Knowledge of ML deployment and model maintenance (e.g. Streamlit, AWS SageMaker)
- Experience with API development and integration (e.g. RESTful, GraphQL)
- Experience with version Control & CI/CD (e.g. Git, Jenkins, CircleCI)

Not meeting every single requirement? We are committed to fostering a diverse and inclusive workplace. If you're excited about this role but your experience doesn't exactly match all the qualifications in the job description, we still encourage you to apply.

What you might love about us

With our more than 30 nationalities across 9 locations worldwide, you would become part of a buzzing, multicultural and social environment. In Ultrabulk, we are convinced that an optimal working environment requires an exceptional social atmosphere across all departments. We believe that work should be fun and rewarding on a personal level. Our mission to be 'a partner you can trust' shines through in our way of being colleagues by caring for one another and, in unison, do our utmost to reach our goals for the business. We believe that flexibility is fundamental in ensuring a balanced life.

Application

We would like you to start as soon as possible. If you would like to learn more about the position, please reach out to Head of Data Solutions, Oskar Jörding at oskar.jording@ultrabulk.com.

Ready to set sail on this exciting journey with us? Applications are evaluated continuously, and interviews will take place on an ongoing basis, so we encourage you to apply as soon as possible. The deadline for uploading your application is 6 April 2025. Only applications uploaded digitally will

be taken into consideration; we do not accept applications sent via e-mail. Your application will be treated with confidentiality and our reply will be sent to the e-mail address you have registered in our recruitment system.

We are committed to providing an inclusive and supportive recruitment experience for all candidates. If you have any specific needs, please let us know how we can assist.

ABOUT ULTRABULK:

Ultrabulk is a leading global dry bulk operator, servicing its customers in their maritime transportation needs in the MPP & Minibulk, Parcel, Handysize, Supramax and Panamax segments. Ultrabulk operates a fleet of 160 to 190 vessels managed by a professional team, strategically located at 9 offices worldwide (Copenhagen, Cape Town, Dubai, New York, Rio de Janeiro, Santiago, Singapore, Sydney, and Tokyo).

FOCUS ON CLIMATE:

The shipping industry is deeply focused on lifting its climate responsibility, and in Ultrabulk it is at the top of our agenda to push for a greener future. We are committed to reduce our emissions with 40% per cargo tons-mile by 2030, and to reach that goal we have to continue to innovate, collect and analyse data, invest in equipment and systems as well as raise general awareness both ashore and at sea.
